

2025 National Indigenous Junior Hockey Championship June 9-12, 2025: Toronto, ON

TECHNICAL PACKAGE

The Technical Package is vital to the National Indigenous Junior Hockey Championships (NIJHC). It guides the selection of athletes by clarifying the age and eligibility requirements, assists the organizing committee by detailing tournament formats and scoring procedures, assists team coaches and managers in verifying eligibility, helps with budgeting by describing the number of participants permitted, advances coaching certification by stating minimum requirements and contributes to athlete development by identifying each Team display of elite Male and Female Indigenous U20 Hockey players.

We invite each Indigenous team representative from the registered Indigenous teams, and its team from both divisions has an obligation to read and understand every aspect of the NIJHL Technical package.

If someone does not understand an aspect of the Technical Package, they should seek clarification from the Hockey Indigenous NIJHC Hockey Committee. The Technical Package is a standing document that is reviewed and revised as required, as the inaugural year and commencing every year before the upcoming NIJHC. Revisions are generally in the form of rule/guideline clarifications.
